

The background is a complex, layered illustration. It features a light blue and white color palette. On the left, there's a faint, stylized cityscape with curved roads and buildings. Overlaid on this are various technical and mechanical elements: a network of thin black lines with small circles and dots, resembling a circuit or data flow; several interlocking gears of different sizes and colors (white, grey, blue, orange, brown); and a series of vertical bars of varying heights on the right side, similar to a bar chart or data visualization. The overall aesthetic is modern, technological, and industrial.

 - 3. Moira
 - 4. Hot Summer
 - 5. UFO

2025 Posm Display Guide

Option 1
Display Option 1:
If the soundbar matting is available, place the info panel on the left side, front-facing.

Display Option 2:
If the soundbar matting is not available, place the info panel in the center.

TYPE OF POSM

2026 Posm Display Guide

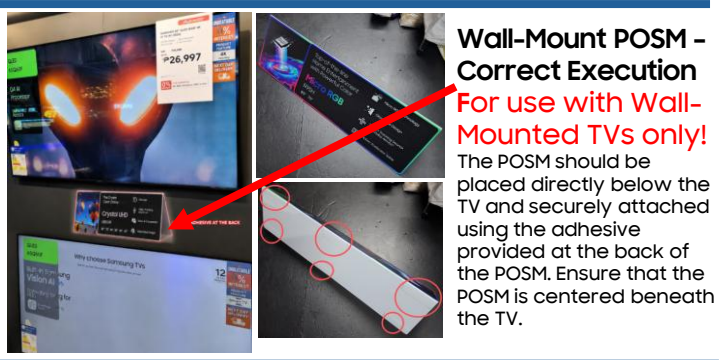

New POSM Update for 2026:
No more topper display. We will now use the Info Panel design.
This can also be used for wall-mounted displays, along with the new Toblerone design for table standees.

Sound Bar & Sound Tower

Note: Sound devices must be connected to all TVs, either via wired connections or Bluetooth. Speakers should be operational and audible at all times.

Wall-Mount POSM - Correct Execution
For use with Wall-Mounted TVs only!
The POSM should be placed directly below the TV and securely attached using the adhesive provided at the back of the POSM. Ensure that the POSM is centered beneath the TV.

REQUEST FORM AND GUIDELINES

Display Rules:

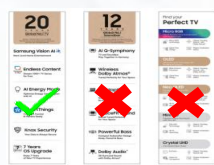

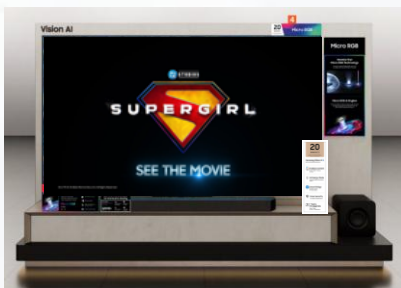

- 1. **Cleanliness** - No dust, adhesives and other materials not belong to the display.
- 2. **Pop materials** - Must be place in the correct location based on the guidelines.
- 3. **Merch Guide** - All Trade supervisors must be aware and equipped of knowledge regarding do's and don't.

Why Samsung Guidelines!

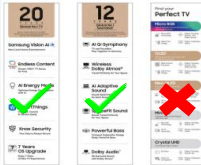

This one pager served as a guide for basic display executions

WINDOW (1 Display)

Window Display 1: Ensure the Why Samsung (Toblerone) POSM is facing forward, with the 20-Year Warranty details clearly visible to customers.

WINDOW (2 Display)

Window Display 2: Ensure the Why Samsung (Toblerone) POSM with 20-Year and 12-Year Warranty details is facing forward and clearly visible to customers.

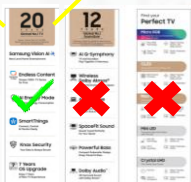

HERO WALL (Option 1)

W/Out SB

Hero Wall – Option 1

If no soundbar is displayed, install only the **TV Info Panel** in the center of the display. Position the **20-Year Why Samsung** POSM facing forward. For **OLED Solo Display**, also use the **20-Year Why Samsung** POSM facing forward.

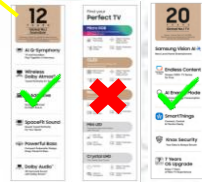

HERO WALL (Option 2)

With SB

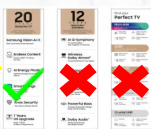

Hero Wall – Option 2

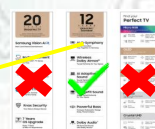

If a soundbar is displayed, use the **12-Year Why Samsung** POSM facing forward. For **OLED Solo Display**, use the **20-Year Why Samsung** POSM facing forward.

Shelved Wall 4 units (Option 1 W/Out SB)

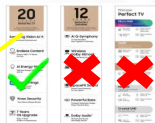

Shelved Wall 4 units (Option 2 with SB)

ISLAND & ENDCAP DISPLAY

Island & Endcap Display: why Samsung & 20YRS posm details upselling is facing forward and clearly visible to the customer.

2 Types of AV POP Materials

This one pager serves as a guide for basic display executions

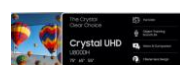

PHYSICAL POSM

A Physical POSM (Point-of-Sale Material) refers to tangible merchandising materials used in-store to **attract** shoppers, highlight promotions, and support product displays.

FAV physical POSM includes materials such as:

- TABLE STANDEE
- INFO PANEL
- SIZE STICKER
- WOBBLER
- SD TOPPER

INFO PANEL

STICKER

WOBBLER

SD TOPPER

TABLE STANDEE

S-POP Screen POP

Screen Pop (SPOP) is a digital POSM displayed on Samsung TVs that highlights key product features, promotions, and marketing messages to capture customer attention and enhance the in-store shopping experience.

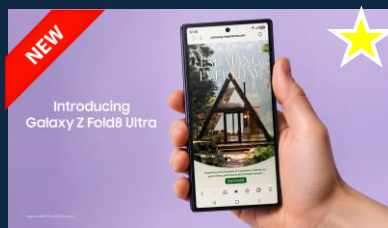

Note: S-POP (Screen Pop) should always be prioritized over E-POP whenever both are available, as it provides a more engaging and effective in-store customer experience.

SPECIAL ISV DISPLAY EXECUTION

- ❑ These two contents should be played only on one dedicated End Cap Display TV and one dedicated Window Display TV. The Picture Quality content is exempted from this requirement.

ZFOLD 8 ULTRA

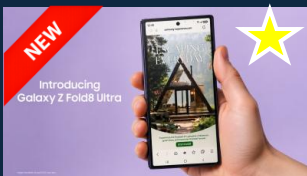

ZFOLD 8 COMBO

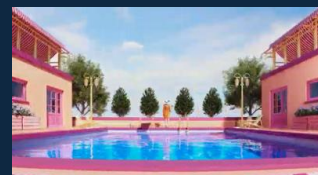

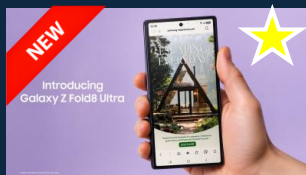

PICTURE QUALITY

- ❑ If a store has only one End Cap Display or one Window Display TV, the Mobile ISV content may be looped with the other ISV videos originally assigned to that TV

End Cap

Window Display

REMEMBER:

Use the right AV POSM in the right way to Attract, inform, and engage every customer

ATTRACT

Get attention

INFORM

Share key information

ENGAGE

Enhance the Shopping experience

Attention: Please refer to the sample videos below for the correct execution lineup for each display area.

REMARKS:

Picture Quality is the default content to be used on all TV displays and looped across all ISV displays at all times.

Special ISVs: Only **one dedicated End Cap Display TV** and **one Dedicated Window Display TV** are allowed to play the two designated Special ISV contents.

KEY REMINDERS

- ✓ Correct lineup Drives Impact
- 👥 Consistent Execution Creates a better customer experience.
- 📈 Follow the guidelines for maximum visibility and results.

How to Install Screen POP

TV Installation Guide via USB Drive

This one-page guide provides step-by-step instructions for installing Screen POP (SPOP) on supported TVs. Please follow the recommended procedure to ensure correct installation and optimal performance.

USB DRIVE

★ Insert the USB drive containing the **Screen POP content** into the TV.

USB Content

★ The TV automatically detects and installs the **Screen POP** package.
✓ Verify that both folders appear:
1.Contents
2.UserWidget

Home

★ Once the USB Drive content has been read, return to the Home Screen and select the **Screen POP widget**.

Setting Mode

★ Select **Shop-in-Shop**, then choose **Vision AI Companion Gemini (VAC)**.

Setting Mode

★ Select **Embedded Demo**. When the Detailed Settings screen appears, review the settings and select **Next**.

Update

★ Select **Without USB Drive**. Wait while the TV updates the **Screen POP** content.

★ Once the update is complete, the **Screen POP** will automatically appear on the TV screen.

EXECUTION TIPS

- ✓ Follow the Guidelines
- ✓ Keep Content updated and high quality.
- ✓ Ensure screens are clean and bright.
- ✓ Use the correct aspect ratio.
- ✓ Verify content is playing correctly.
- ✓ Make sure posm is executed perfectly.

KEY REMINDERS

- Correct lineup Drives impact
- Consistent Execution Creates a better customer experience.
- Follow the guidelines for maximum visibility and results.

This one-pager will serve as the official guideline for Air Conditioner display execution. Although the format is based on the Abenson merchandising guideline, the same display execution may also be applied across other dealer stores to maintain consistency and proper brand presentation. Please note that the only expected differences per dealer are the price tag format and the placement of other POSM materials, depending on store requirements and existing display standards. All teams are advised to strictly follow the prescribed display format and ensure proper implementation in all stores.

PLEASE READ

Please be advised that our 20-year warranty stickers will expire on March 31, 2026. Therefore, we will commence the removal of all existing 20-year warranty stickers across all stores from March 28th to 31st.

The removal process will be followed by the installation of the new 10-year warranty tags, which will take place between April 1st and April 5th, 2026.

The new 10-year warranty tags are now available at all our warehouses.
