

A wide-angle photograph of a winter landscape. In the foreground, a snow-covered field reflects the colors of the sky. A line of snow-laden evergreen trees stands in the middle ground. The background shows a sunset with a bright orange and yellow glow on the horizon, transitioning into a deep blue and purple sky. The aurora borealis is visible as vibrant green and blue light curtains dancing across the upper portion of the sky.

TV, Sound Device & Display

POSM Merchandising Guideline

TV, SOUND DEVICE & DISPLAY POSM VARIANTS

TV INFO PANEL

390mmW x 120mmH + 104mmH (Flap)

Material & Execution:
Direct print on high impact
with 60-degrees bending

Placements:
Baywall, column rack, island, endcap
& hotspot table

TV TOPPER

340mmW x 80mmH + 20mmH (Flap)

Material & Execution:
Direct print on high impact, 90-degrees
bending with Clear acetate
(340mmW x 60mmH + 20mmH Flap)

Placements:
On the top left side of the TV display
for island, wall wall & endcap.
On the top right side of the TV display
for window racks.

WHY SAMSUNG TOBLURONE

120mmW x 400mmH (Per panel)

Material & Execution:
Sticker on 1mm sintra
with scoring and bending

Placements:
Baywall, column rack, island, endcap
& hotspot table

SOUNDBAR INFO PANEL

200mmW x 120mmH + 104mmH (Flap)

Material & Execution:
Direct print on high impact
with 60-degrees bending

Placements:
Baywall, column rack, island, endcap
& hotspot table with soundbar model

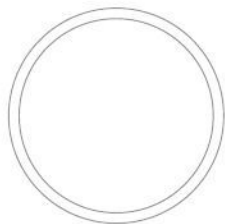

MONITOR TABLE STANDEE

100mmW x 200mmH

Material & Execution:
Direct print on high impact
with 80-degrees bending

Placements:
On top of the display monitor matting
beside the monitor model

TV SIZE HIGHLIGHT STICKER

20mmW x 20mmH

Material & Execution:
Direct print on easy dot sticker
with die-cut and white ink

Placements:
On the TV info panel POSM to highlight
the size of the TV displayed

SOUND TOWER TOPPER

270mmW x 120mmH

Material & Execution:
Silver sticker with white ink,
mounted on clear PVC with 90° bending

Placements:
For sound tower ST50F models only.

SOUND TOWER TOPPER

230mmW x 110mmH

Material & Execution:
Silver sticker with white ink,
mounted on clear PVC with 90° bending

Placements:
For sound tower ST40F models only.

TV TOPPER INFORMATION

2-step application

Step 1:

- Attach the adhesive below the Topper POSM first.
- Make sure that the design is 90-degrees when viewed from the side because the top part of some TV models are not straight.

Step 2:

- Make sure the POSM is straight and not leaning forward before attaching the adhesive on the PVC support. This will help in keeping the POSM straight.
- Do not attach both PVC at the same time.

● High Impact Printed Material

● Acetate Support

● Adhesive

The image shows a retail display for Samsung OLED televisions. The display is set against a dark background with the 'SAMSUNG' logo in large, illuminated white letters. Below the logo, the word 'OLED' is displayed in a white box. On the left, a large 77-inch TV is mounted on a light-colored wooden stand. The TV screen shows a vibrant green and blue abstract image. A small red box with the number '1' is placed in front of the TV, and a small blue box with the number '2' is placed on the screen. To the right of the TV, a small informational card is visible. On the right side of the display, two 55-inch TVs are stacked vertically. Both screens show a purple and blue abstract image. A small red box with the number '1' is placed in front of each TV, and a small informational card is placed below each TV. The entire display is set on a light-colored wooden base.

A wide-angle photograph of a winter landscape. In the foreground, a snow-covered field stretches towards a line of dark evergreen trees. To the right, several snow-laden evergreen trees stand prominently. The sky is a mix of deep blues and purples, with a vibrant aurora borealis (Northern Lights) displaying green and blue hues. The sun is low on the horizon, creating a warm orange glow that reflects on the snow.
